# all runs 3 miles + one 36 minute bike 

 all runs $3-4$ miles $+1-48$ minute bike\# Take one-two days per week completely off of running. It is okay to run in the morning and bike in the afternoon on same day.
bike duration counts as mileage at 12 minutes of biking equalling 1 mile of running
** Every Easy run should be a minimum of 30 minutes - small walk breaks okay in Phase I if needed

* Long run in Phase I should be $30 \%$ of weekly mileage or 60 minutes, in subsequent phases II-IV, long run can be up to 90 minutes Tempo Run - "comfortably hard"
ST
Circuit
Strides 4-8 strides at the conclusion of the run
Circuit Circuit training should be completed 3 times per week in the summer months
